Connect with Confidence, Disconnect in Safety with Aircraftplugs®

Aircraftplugs® manufactures aircraft and helicopter power connectors Worldwide deliveries

#### Aircraftplugs advantages

- minimum structure for maximum efficiency
- strategic locations around the world and fast distribution
- hi-tech production equipment
- orders tailored to the customer's needs
- competitive prices
- expansive international reputation and no-nonsense style
- Every delivery comes with the technical data sheets and certificates
- Performance and dimensions to Mil spec, ISO, and appropriate MOD (Air)and NSN Standards

Your green, reliable partner in Aviation Connectors

 **Aircraftplugs®**

## ABOUT US

- Aircraftplugs, develops, tests and manufactures battery connectors, DC and AC 400 Hz. connectors and assemblies for the aeronautical industries. (Airports, Handling companies, Airlines and private users.)
- Deliveries throughout Europe and the rest of the world are prompt and right on time.
- Aircraftplugs is a Belgium based company established in 1997 and started with the mass production in 2007. We managed to increase business together with the expansion of the production facilities, warehouses and up-to-date testing facilities in a short period of time.
- We stand for top quality products, client first service and worldwide on-time deliveries.
- With over 25 years of experience in the airline industry.
- We do have a 6000 m<sup>2</sup> productions site, with state of the art CNC machinery and own testing facilities. Own molding and injection machines.
- More than 100.000 connectors in stock at all times.

## Clients Testimonial :

"Our global search for the best connector for our aviation ground power units led us to Aircraftplugs.

All of our efforts to provide stable, clean airframe power ultimately depends on a solid, reliable connection to the aircraft. That's why we use Aircraftplugs connectors exclusively for our GPUs... the best quality, the best value, and a reliable business partner for 11 years now."

28VDC – 400 Hz sockets – receptacles available in stock | Optional in own color

## PROPERTIES

Perfect solution for battery chargers , testing power supplies and maintenance.  
 Mates with the AN2552-3A external power receptacle.  
 Screws together in seconds  
 Portable unit which can be carried in the aircraft at all times because it is so lightweight.  
 It can be used to start the aircraft from an ordinary car using standard jumper cables.  
 Is a simple conduit of power from any external power source to the aircraft.  
 It is not a battery in and of itself. Can be used for either 28V or 14V systems  
 240A continuous, peak 1500 Amps, control contact 35 A continuous

## PARTNUMBERS

PLUG PART	Configuration
ACPJ&P	Complete plug & jump universal model.
ACPJ&P-A	plug & jump universal model housing.
ACPJ&P-B	plug & jump universal model aux contact.
ACPJ&P-C	plug & jump universal model main contact
ACPJ&P-D	plug & jump universal model with crocodile clamps.
ACPJ&P-P	plug & jump piper model

## PROPERTIES

450 A continuous , 1500 A for 1 minute,  
 Mates with the piper external power receptacle.  
 Cable assemblies to client requirements available.  
 Do not use unattended, standard Piper plug with cable is recommended.

# Aircraftplugs® AN2551 Connectors

## GENERAL - ADVANTAGES

- Ergonomic and high impact resistance, polycarbonate external power connector.
- 3 PIN NATO AN2551 external power connector for 12V / 24V or 28VDC application
- Patented connector worldwide in usage.
- Mates with AN2552 receptacle.
- Black rubber variant available.
- Quality durable silver plated contacts.

## PROPERTIES

Hardness 13800psi, max. cable 50 mm<sup>2</sup> / 1 AWG

Mates with the Aircraftplugs AN2552-3A external power receptacle.

Performance and dimensions to ISO 461 (BS4G173:1985) and appropriate MOD (Air) and NSN Standards.

Cable assemblies to client requirements available.

Recommended wires : 25mm<sup>2</sup> or 4 AWG.

240A continuous, peak 1500 Amps, control contact 35 A continuous.

## PARTNUMBERS

PART NUMBER	
AN2551	Complete plug AN2551.
AN2551-F	Set of 2 main contacts and relay contact.
AN2551-C	Set of 2 main contacts pure copper silver plated with spring system.
AN2551-L	Relay contact with switch with cables.
AN2551-M	Relay contact with split contact and cables.
AN2551-N	Relay contact with internal spring.
AN2551-P	Polycarbonate cover. (no holes)
AN2551-O	Polycarbonate cover red with holes.
AN2551-S	Set of 6 stainless steel screw.
AN2551-A	Assembly of AN2551 connector with 2 meters (7 feet) 25mm <sup>2</sup> cable. (4AWG)
AN2551-B	Assembly of AN2551 connector with 2 meters (7 feet) 35mm <sup>2</sup> cable. (2AWG)
AN2551-D	Assembly of AN2551 connector assembly with crocodile clamps. (2 meters   7 feet).

## TAILOR MADE

You want to give your ground power unit its own special look and feel.  
You're looking for a custom made to order color. You can work with our color experts to choose

#### Piper connector Assembly

P/N ACP-Piper1

12V assembly with SB connector

# Aircraftplugs® AN2551 Connectors

## AN2551 Assembly

AN2551 Assembly P/N ACP-AN2551-SB1

#### External Power Connector Kit for Experimental

Kit to install a quick connect harness for 12V experimental and amateur-built aircraft. May be installed as a battery charging port and/or a ground power receptacle. Standard yellow mating Anderson SB50.

#### Airframe charger for 28V Certified Aircraft

Quick connect battery charger harness kit  
Aviation grade components for FAA-certified aircraft  
Adapts BatteryMINDER® SAE plug to Anderson SB50  
Rugged handle with strain relief  
No FAA field approval or Form 337 is required  
Certified mechanic can install and return to service

## GENERAL - ADVANTAGES

Designed and manufactured by Aircraftplugs® Worldwide usage. (Patented connector)  
 3 poles – 28VDC external power female 3 poles rubber plug for aircraft and helicopters.  
 Made to Mil-C-7974 standards ,MS25488  
 Mil-C-5756 electrical cable it is meeting the MS90347 specification.  
 The 3 poles DC Aircraftplugs® is a robust and durable connector.  
 Sleeves are machined solid copper, silver plated.  
 Special cable sizes and configurations on request.

## PROPERTIES

450 A continuous , 1500 A for 1 minute, control contact 35 A continuous.  
 Mates with the Aircraftplugs AN2552-3A external power receptacle.  
 Performance and dimensions to ISO 461 (BS4G173:1985) and appropriate MOD (Air) and NSN Standards.  
 Cable assemblies to client requirements available.  
 Max. wire 120mm<sup>2</sup> or 4/0 AWG 250 MCM.  
 Stainless steel screws.

#### Technical data

The new 28VDC Replaceable Contact Section from Aircraftplugs is specially designed with a tapered edge to fit securely on any aircraft on the market today that utilizes 28VDC / 24VDC power.

A highly durable rubber selected for its strength, durability and longer life.

450 Amps max. continuous current.

1500 Amps maximum 1 minute.

Control component 35 amps continuous current.

Different grummet configurations, 3 or 5 cables.

Split control pins & tubes.

Crimped or soldered contacts.

Durable silver plated power and aux. contacts

It fit all aircraft types with a DC external power receptacle.

## REPLACEMENT NOSE SECTIONS - ADVANTAGES

The new 28VDC Replaceable Contact Section from Aircraftplugs is specially designed with a tapered edge to fit securely on any aircraft on the market today that utilizes 28VDC / 24VDC power.

A highly durable composite , nylon selected for its strength, durability and longer life.

It fit all aircraft types with a DC external power receptacle.

The replacement will increase the life of cables even longer by allowing the nose cap to be easily replaced.

Main advantages :

- Increases safety on the ramp.
- Extend the life of your connectors.
- Will reduce maintenance cost.
- Construction screws together in minutes.

PLUG PART	
ACP3PNS-B	28VDC Rubber connector with Blue contact section in composite
ACP3PNS-R	28VDC Rubber connector with Red contact section in composite
ACP3PNS-G	28VDC Rubber connector with Green contact section in composite
ACP3PNS-Y	28VDC Rubber connector with Yellow contact section in composite

# Aircraftplugs® AN2551 Connectors

4,5,6 wire (aux. Contact)

## GENERAL - ADVANTAGES

- 4,5,6 wire , high impact resistance , rubber external power connector.
- 3 PIN NATO AN2551 external power connector for 12V / 24V or 28VDC application
- Optional split control switch contact..
- (2 x 2) or (1 x 2) main wires configuration .
- Mates with AN2552 receptacle .
- Machined silver plated contacts .
- Special cable sizes and configurations on request .

## PROPERTIES

450 A continuous , 1500 A for 1 minute, control contact 35 A continuous.

Mates with the aircraftplugs AN2552-3A external power receptacle.

Performance and dimensions to ISO 461 (BS4G173:1985) and appropriate MOD (Air) and NSN Standards.

Cable assemblies to client requirements available.

Max. wire 120mm<sup>2</sup> or 4/0 AWG 250 MCM.

Stainless steel screws.

- Performance and dimensions to ISO 461 (BS4G173:1985) and appropriate MOD (Air) and NSN Standards.
- Cable assemblies to client requirements available.
- Max. wire 120mm<sup>2</sup> or 4/0 AWG 250 MCM.
- Stainless steel screws.

#### PARTNUMBERS

PLUG PART	Description
ACP-JB-1	Receptacle 28VDC
ACP-JB-2	Connector 28VDC
ACP-JB-3	Receptacle 115V / 400 Hz
ACP-JB-4	Connector 115V / 400 Hz
ACP-JB-5	Receptacle 115V / 400 Hz Green
ACP-JB-6	Receptacle 115V / 400 Hz Yellow

#### GENERAL - ADVANTAGES

- 400 hz – 115V , high impact resistance, rubber external power connector, worldwide in use.
- MS25486
- Silver plated contacts, pure copper.
- MS tolerances.
- Fits with the MS receptacle.
- Special cable sizes and configurations on request.
- 450 A continuous , 1500 A for 1 minute, control contact 35 A continuous.
- Performance and dimensions to ISO 461 (BS4G173:1985) and appropriate MOD (Air) and NSN Standards.
- Cable assemblies to client requirements available.
- Max. wire 120mm<sup>2</sup> or 4/0 AWG 250 MCM.
- Stainless steel screws.

## SPECS

- 400 hz – 115V , high impact resistance, rubber external power connector.
- Silver plated contacts, pure copper. Individual tubes/pins can be replaced.
- MS tolerances. Available with detachable front nose sections
- Special cable sizes and configurations on request. (Tailor made grummetts available.)
- 450 A continuous , 1500 A for 1 minute, control contact 35 A continuous.
- Performance and dimensions to ISO 461 (BS4G173:1985) and appropriate MOD (Air) and NSN Standards.
- Cable assemblies to client requirements available.
- Max. wire 120mm<sup>2</sup> or 4/0 AWG 250 MCM.
- Stainless steel screws.
- Available with 90% insertion microswitch.
- Suitable for a wide range of cable sizes
- Crimped or soldered contacts.
- Modular design to ensure ease of maintenance

## DIMENSIONS

## TECHNICAL DATE ( Cont. On next page )

- Made in Belgium, with quality rubber.
- Modular connector.
- Different switch and leds configurations, 90% insert switch available.
- Own company logos available.

See next page

#### DIFFERENT CONFIGURATIONS

- UP / DOWN switches
- ON / OFF switches
- Thermal control
- LED's

with removable nose section

## ADVANTAGES

- high impact resistance, rubber external power connector.
- Modular design
- Customizable integrated LED and push-button units can be easily replaced
- 90% insert switch.
- Optional thermal nose protection.
- Special cable sizes and configurations on request.
- replacement connectors which allow the user to replace a worn cable head in the field maximizing the life of your 400Hz power cables
- Performance and dimensions to ISO 461 (BS4G173:1985) and appropriate MOD (Air) and NSN Standards.
- Cable assemblies to client requirements available.
- Max. wire 120mm<sup>2</sup> or 4/0 AWG .
- Stainless steel screws.

## ADVANTAGES

- high impact resistance, rubber external power connector.
- Modular design
- 95 optional% insert switch.
- Special cable sizes and configurations.
- replacement connectors which allow the user to replace a worn cable head in the field maximizing the life of your 400Hz power cables
- Performance and dimensions to ISO 461 (BS4G173:1985) and appropriate MOD (Air) and NSN Standards.
- Cable assemblies to client requirements available.
- Max. wire 120mm<sup>2</sup> or 4/0 AWG .
- Stainless steel hardware.
- 450 A continuous , 1500 A for 1 minute, control contact 35 A continuous.
- Mates with the aircraftplugs MS90362 external power receptacle.

## GENERAL

## PROPERTIES

450 A continuous , 1500 A for 1 minute, control contact 35 A continuous.

Mates with the aircraftplugs MS90362 external power receptacle.

Performance and dimensions to ISO 461 (BS4G173:1985) and appropriate MOD (Air) and NSN Standards.

Cable assemblies to client requirements available.

Max. wire 120mm<sup>2</sup> or 4/0 AWG 250 MCM.

Stainless steel screws.

## GENERAL

- high impact resistance, rubber & polymere external power connector.
- 400 Hz – 115 Volt, optional thermal protection in nose section.
- Solid insert switches.
- Optional temperature control.
- Special cable sizes and configurations on request.
- On / Off Up / Down switch and LED config.
- Modular connector.
- 90% insert switch.

## PROPERTIES

450 A continuous , 1500 A for 1 minute, control contact 35 A continuous.

Mates with the aircraftplugs MS90362 external power receptacle.

Performance and dimensions to ISO 461 (BS4G173:1985) and appropriate MOD (Air) and NSN Standards.

Cable assemblies to client requirements available.

Max. wire 120mm<sup>2</sup> or 4/0 AWG 250 MCM.

Stainless steel screws.

PLUG PART	DESCRIPTION
ACPRH28VDC	Receptacle w/Shield and Fine Thread Terminals
ACPR28VDC-D	Receptacle double main contact
ACPR28VDC-Split-Aux	Receptacle switch contact
ACPS28VDC-Split-Aux	Aux. switch contact

Left : 28VDC connector ACP3P-A  
Right: 28VDC Portable receptacle

#### Technical data

The new 28VDC Replaceable Contact Section from Aircraftplugs is specially designed with a tapered edge to fit securely on any aircraft on the market today that utilizes 28VDC / 24VDC power.

A highly durable rubber selected for its strength, durability and longer life.

450 Amps max. continuous current.

1500 Amps maximum 1 minute.

Control component 35 amps continuous current.

Different grummet configurations, 3 or 5 cables.

Split control pins & tubes.

Crimped or soldered contacts.

Durable silver plated power and aux. contacts

It fit all aircraft types with a DC external power receptacle.

Left : 28VDC connector ACP3P-A

Right: 28VDC Portable receptacle

## PROPERTIES

- Tailor made shield covers, to protect the electrical connector , in the material selected .  
We do inhouse anodizing and plating.  
Shields with or without hinge (springloaded) cover plates with your logo and powder coated into your RAL color.

#### 400 hz receptacle rear cover

- Tailor made rear covers, to protect the electrical connector .

*ACP6B 6 poles female recept.*

*ACP3B 3 poles female recept.*

## PROPERTIES

- Female receptacle 400 hz / 115V.
- 450 A cont. , 1500 A for 1 minute.
- E&F contacts max 35 A.
- According to MIL-C-81790
- Bases are molded from reinforced material for low moisture absorption and high strength.
- 400 Hz Receptacles according to ISO461/1 AND ISO461/2, and US Military Specification MIL-C-81790 (A) / BS4G178 dimensions.
- Optional : Protected flange mounted 400Hz or 28Vdc connectors, Cast aluminium alloy housing and lid
- Crimped or soldered contacts , Mounting boxes available

## PARTNUMBERS

- Meets requirements of MS3506-1 / MS90362.
- Receptacles are available in variety of styles to meet all your ground power connectors.
- Thermal shock -65° to + 200°C
- 2500 VRMS with <1 milli-amp leakage.
- 1500 A for 1 minute and 450 A Continues

## PARTNUMBERS

PLUG PART	Description
ACP-JB-1	Receptacle 28VDC
ACP-JB-2	Connector 28VDC
ACP-JB-3	Receptacle 115V / 400 Hz
ACP-JB-4	Connector 115V / 400 Hz
ACP-JB-5	Receptacle 115V / 400 Hz Green
ACP-JB-6	Receptacle 115V / 400 Hz Yellow

## GENERAL

Mates with piper receptacle sockets.

This Electrical conductors is designed for maximum efficiency and long life.

With ground return terminal. Single pole.

Brass female contact with spring-grip tension provides solid engagement with the socket.

Cable clamp holds wires firmly in place. Diecast housing. Accepts up to 0AWG cable.

Cable assemblies manufactured to customer requirements available.

Maximum 1600A based on the resistance this would give less than a .1V drop per contact.

Accepts up to 0AWG cable. Diecast metal housings.

Electrical conductors and connections are designed for maximum efficiency and long life.

With ground return terminal.

Made in Belgium.

## PARTNUMBERS

PLUG PART	Configuration	Description
ACP12VP	2 wires	12V piper style connector
ACP12VP-R	2 wires	12V piper style receptacle

## GENERAL

- 4 or 2 wire , high impact resistance, removable nose section , rubber external power connector.
- 3 PIN NATO AN2551 external power connector for 12V / 24V or 28VDC application
- split control switch contact on request.
- 2 x 2 main wires configuration.
- Mates with AN2552 receptacle.
- Silver plated contacts.
- Special cable sizes and configurations on request.

## PROPERTIES

450 A continuous , 1500 A for 1 minute, control contact 35 A continuous.

Mates with the aircraftplugs AN2552-3A external power receptacle.

Performance and dimensions to ISO 461 (BS4G173:1985) and appropriate MOD (Air) and NSN Standards.

Cable assemblies to client requirements available.

Max. wire 120mm<sup>2</sup> or 4/0 AWG 250 MCM.

Stainless steel screws.

ACP3P7-5	4 wires	120 mm <sup>2</sup> 2-4/0 single conductor	ACP3P7GW	ACP3R7
ACP3P8-5	4 wires	120 mm <sup>2</sup> 2-4/0 oval twin conductor	ACP3P8GW	ACP3R8
ACP3P9-5	4 wires	120 mm <sup>2</sup> 2-2/0 welding single cond.	ACP3P9GW	ACP3R9

## GENERAL

- high impact resistance, rubber external power connector nose cap.
- Mates with 3 PIN NATO AN2551 28 VDC / 3 poles external power connector or 400 Hz connector (2 versions)

PLUG PART	Description
ACP3PC	dust cover for 3 poles connector
ACP6PC	dust cover for 6 poles connector
ACP3PR	dust cover for 3 poles receptacle
ACP6PR	dust cover for 6 poles receptacle
ACP3PCL30	Lanyard for dust cover 30 cm
ACP3PRL50	Lanyard for dust cover 50 cm

PLUG PART	Description
ACP3PC	dust cover for 3 poles connector
ACP6PC	dust cover for 6 poles connector
ACP3PR	dust cover for 3 poles receptacle
ACP6PR	dust cover for 6 poles receptacle

## GENERAL

- high impact resistance, rubber external power connector nose cab.
- Max 450 Amps – 3 Phase

## PARTNUMBERS

PLUG PART	Description
ACPMS272656	MS272656
ACPMS272656D	dust cover
ACPMS272656R	Rear part

#### GENERAL

- Male female DC cable extensions durable rubber AN2551 / AN2552
- Optional with dust covers.
- Pure copper cable shoes.
- Made according to your requirements on request. ( standard 70mm<sup>2</sup> cable)

PLUG PART	Description
ACPDCEXT50	50mm <sup>2</sup> cable extension DC
ACPDCEXT70	70mm <sup>2</sup> cable extension DC.

## GENERAL

- Machined silver plated cable shoes.
- Crimping marking and cable section information on the cable shoes.
- Pure copper or brass cable shoes for crimping or soldering.
- Made according to your requirements on request.

PLUG PART	Description
ACPCLG15	15mm <sup>2</sup> AWG 6 silver plated cable lug for main contacts.
ACPCLG35	35mm <sup>2</sup> AWG 2 silver plated cable lug for main contacts.
ACPCLG50	50mm <sup>2</sup> AWG 1/0 silver plated cable lug for main contacts.
ACPCLG70	70mm <sup>2</sup> AWG 2/0 silver plated cable lug for main contacts.
ACPCLG90	90mm <sup>2</sup> AWG 4/0 silver plated cable lug for main contacts.
ACPCLG120	120mm <sup>2</sup> AWG 250 silver plated cable lug for main contacts.
ACPCLG4W	4 wires adapter lug
ACPCLGEF	E & F contact lugs

#### GENERAL

- High Current Capacity • Rugged Construction • Safety • Serviceability
- Heavy electrical loads: current range from 40 to 200 amperes .
- Direct current or single/three phase, 60/400 Hertz alternating current
- Automatic grounding for safety
- Meet MIL-DTL-22992 qualification
- Resistance to the operating environments of heat, moisture, vibration, high impact and immersion - see chart below.

For orders , contact us for specific part numbers

## GENERAL

- Commercial Off-The-Shelf (COTS) derivative circular connectors exist that intermate with the military versions designed to MIL-C-5015/MIL-DTL-5015. Both COTS and military-style connectors are sometimes called "Type AN" connectors, "MS connectors" "are notable manufacturers of this type of connectors. Aircraftplugs provides a "5015 series" rugged, versatile and environmental resistant connector with proven electrical capability in a cost effective package. 5015 series connectors are medium to heavy weight cylindrical connectors with 5 shell styles, 19 shell sizes and 5 service classes. The 5015 offers 305 contact arrangements from 1-to-104 circuits. Aircraftplugs and is the foremost manufacturer of Type "AN", MS and MS-type connectors with the widest range of connector styles, sizes and variations in the industry

## GENERAL

Do you have a need for a tailor made connectors (with or without housing ). We can make “made to specification” connectors. Aircraftplugs engineering team can develop the housing, connectors, help you out with material selection.

We do produce molds for plastic and rubber housing.

Small and large batches our welcome.

We provide fast turnarounds of drawings and case studies.

From concept to prototypes in several weeks.

## GENERAL

- The NATO plug, available in different cabling configurations, is widely used by military land vehicles such as the HMMWV.

## PROPERTIES

450 A continuous , 24V power supply

## PARTNUMBERS

PLUG PART	Description
ACP_NT_24	24 V connector NATO version

GENERAL

- Aircraftplugs grummets for 400 hz or 28VDC connectors, to protect wires, cables , and make the assembly watertight.
- Different standard sizes or tailor made grummets.

PARTNUMBERS

PLUG PART	Description
See connector pages.	

#### ADVANTAGES

Aircraftplugs 400 Hz AC cables assemblies available in different sections.

- Double insulated
- High flexibility at all operating temperatures
- Low adhesion
- Abrasion resistant
- Optional 90 percent insert switch / push switches / Led
- Resistant to UV.

## GENERAL

- Aircraftplugs 28VDC cables available in different sections , standard sections 25mm<sup>2</sup> , 50 mm<sup>2</sup> or 75 mm<sup>2</sup> , 90 mm<sup>2</sup> or 120 mm<sup>2</sup>.

## ADVANTAGES

- Double insulated
- High flexibility at all operating temperatures
- Low adhesion
- Abrasion resistant
- Halogen-free
- Resistant to UV radiation, oil, hydrolysis and microbial attack

## GENERAL

- Single pole cables
- Cables with 4 control wires
- Stranded sets of 4 Cables with control wires
- Cables with 6 Cores twisted around neutral central core
- Cables with 3 Cores.
- Double insulated
- High flexibility at all operating temperatures
- Low adhesion
- Abrasion resistant
- Halogen-free
- Resistant to UV radiation, oil, hydrolysis and microbial attack

## GENERAL

6-pole 400 Hz AC molded head- 3 poles DC molded head.  
silver-plated tellurium copper power contacts  
control contacts – control lead (twin conductor)  
Jacketed wire cable with control lead  
115/200 volts or 28VDC  
3-phase power or DC  
Minimum of 90% IACS conductivity

**PARTNUMBERS**

P/N	Description
ACPSPROT3	Ground Power Cable Scuffer black
ACPSPROT4	Ground Power Cable Scuffer orange

## GENERAL

- Cable guidance with optional break away connectors for safety
- Powder coated construction for 400 hz or 28VDC cables assembly.
- Metallised corrosion protection
- Optional in your own colors.
- Feet for easy mounting to ramp service

## PARTNUMBERS

PLUG PART	Description
ACPCBG1000	Aircraftplugs Cable guidance.

Aircraftplugs has over 10 years of experience in producing battery connectors and receptacles, including battery vents and tubes.

To facilitate installation and removal of the battery in some aircraft, a quick disconnect assembly is used to connect the power leads to the battery. This assembly, attaches the battery leads in the aircraft to a receptacle mounted on the side of the battery. The receptacle covers the battery terminal posts and prevents accidental shorting during the installation and removal of the battery. The plug consists of a socket and a handwheel with a coarse pitch thread. It can be readily connected to the receptacle by the handwheel. Another advantage of this assembly is that the plug can be installed in only one position, eliminating the possibility of reversing the battery leads.

We Produce different types of receptacles with different cables attachments .

#### MS3506 Style 1

- Mil-Spec qualified to MIL-PRF-18148/3 (MS3509). Military connector #'s include: MS3509-28, MS3509-28-1, MS3509-29, MS3509-29-1, MS3509-20, MS3509-30, MS3509-31, MS3509-32.
- Aircraftplugs battery receptacles maintain a low contact resistance, even when used in certain applications requiring 750 amps of continuous current, with peak current reaching 1500+ amps.

- Mil-Spec qualified to MIL-PRF-18148/3 (MS3509). Military connector #'s include: MS3509-28, MS3509-28-1, MS3509-29, MS3509-29-1, MS3509-20, MS3509-30, MS3509-31, MS3509-32.
- Aircraftplugs battery receptacles maintain a low contact resistance, even when used in certain applications requiring 750 amps of continuous current, with peak current reaching 1500+ amps.

- Mil-Spec qualified to MIL-PRF-18148/3 (MS3509). Military connector #'s include: MS3509-28, MS3509-28-1, MS3509-29, MS3509-29-1, MS3509-20, MS3509-30, MS3509-31, MS3509-32.
- Aircraftplugs battery receptacles maintain a low contact resistance, even when used in certain applications requiring 750 amps of continuous current, with peak current reaching 1500+ amps.

- Mil-Spec qualified to MIL-PRF-18148/3 (MS3509). Military connector #'s include: MS3509-28, MS3509-28-1, MS3509-29, MS3509-29-1, MS3509-20, MS3509-30, MS3509-31, MS3509-32.
- Aircraftplugs battery receptacles maintain a low contact resistance, even when used in certain applications requiring 750 amps of continuous current, with peak current reaching 1500+ amps.

## MS3506 Style 1

- Mil-Spec qualified to MIL-PRF-18148/3 (MS3509). Military connector #'s include: MS3509-28, MS3509-28-1, MS3509-29, MS3509-29-1, MS3509-20, MS3509-30, MS3509-31, MS3509-32.
- Aircraftplugs battery receptacles maintain a low contact resistance, even when used in certain applications requiring 750 amps of continuous current, with peak current reaching 1500+ amps.

## Mechanical properties

- Made with precision out of High temperature nylon
- Locking possible.
- Maximum Wire Size 4/0
- Environmental Sealing IP68 (pin connector) & IP55 (socket connector)
- Operating Temperature -40° C to +125° C
- Flammability Rating UL94 V-0
- Mates with all MS battery connectors.
- 99% pure red copper contacts.
- 5 micron or more durable silver plating.

## Electrical properties

- Mil-Spec qualified to MIL-PRF-18148/3 (MS3509). Military connector #'s include: MS3509-28, MS3509-28-1, MS3509-29, MS3509-29-1, MS3509-20, MS3509-30, MS3509-31, MS3509-32.
- Aircraftplugs battery receptacles maintain a low contact resistance, even when used in certain applications requiring 750 amps of continuous current, with peak current reaching 3000+ amps. Rated voltage 1000 Volts

## PARTNUMBERS

#### GENERAL

- 4, wire , high impact resistance battery connector
- Silver plated contacts.
- Special cable sizes and configurations on request.

#### PROPERTIES

## GENERAL

- high impact resistance connector. Ideally suited for any 270 VDC applications, including the F-22 & F-35 aircraft.
- Precision CNC , Silver plated contacts.
- Anodized aluminium shield.

## PARTNUMBERS

PART	P/N
270 VDC receptacle (without shield and with contacts)	ACP270VDCR
270 VDC shield	ACP270VDCS
270 VDC main contact	ACP270VDCU
270 VDC sense contact	ACP270VDCV
270 VDC rear cover	ACP270VDCN

270 VDC receptacle

TERMINAL COVER REMOVED FOR CLARITY

## 270 VDC receptacle

## 270 VDC

- High impact resistance connector. Ideally suited for any 270 VDC applications, including the F-22 & F-35 aircraft.
- Innovated precision CNC , Silver plated contacts, superior design.
- No maintenance connector, for smooth and reliable operations.
- Hypalon quality molded head.
- Easy connection to cable.
- Resistant to abrasion, petroleum products & ozone/environmental deterioration
- Ideally suited for most common intelligent fast charging applications
- Replaceable nose section.
- Industrial strength.
- Meets Lockheed Martin Aeronautics Company Drawing 5PTV6002.
- Meets SAE-AS7974/5
- Supplied with or without cable.
- Integral molded head to ensure no liquids or debris will get into the electrical contact area which could cause an electrical arch or short . There are no metal screws to hold the 270VDC head in place which could cause an electrical short if the head was damaged during use.

270 VDC connector Male	ACP270VDC-M

High-quality 270VDC connector cable assemblies to the worlds military market.

Designed and tested to meet the F-35 Lighting II stringent SAE AS7974/5 standard, our 270VDC ground power cable assemblies are used worldwide to support every military branch of service supporting all the F-35, F22 aircraft variants.

MALE portable connector.

#### PARTNUMBERS

PART	P/N
270 VDC portable male connector	ACP270VDC-M

High-quality 270VDC connector cable assemblies to the worlds military market. Designed and tested to meet the F-35 Lighting II stringent SAE AS7974/5 standard, our 270VDC ground power cable assemblies are used worldwide to support every military branch of service supporting all the F-35, F22 aircraft variants.

Break Away 270 VDC

#### PARTNUMBERS

PART	P/N
270 VDC connector breakaway	ACP270VDC-Breakaway

High-quality 270VDC connector cable assemblies to the worlds military market.

Designed and tested to meet the F-35 Lighting II stringent SAE AS7974/5 standard, our 270VDC ground power cable assemblies are used worldwide to support every military branch of service supporting all the F-35, F22 aircraft variants.

Male portable receptacle can be used to make extension cords , breakaways.

#### PARTNUMBERS

PART	P/N
270 VDC male receptacle portable	ACP270VDC-M-RECPT

High-quality 270VDC connector cable assemblies to the worlds military market. Designed and tested to meet the F-35 Lighting II stringent SAE AS7974/5 standard, our 270VDC ground power cable assemblies are used worldwide to support every military branch of service supporting all the F-35, F22 aircraft variants.

Break Away 270 VDC

#### PARTNUMBERS

PART	P/N
270 VDC connector breakaway	ACP270VDC-Breakaway

High-quality 270VDC connector cable assemblies to the worlds military market.

Designed and tested to meet the F-35 Lighting II stringent SAE AS7974/5 standard, our 270VDC ground power cable assemblies are used worldwide to support every military branch of service supporting all the F-35, F22 aircraft variants.

Dustcover Female 270 VDC – Male receptacle – 270 VDC connector

#### PARTNUMBERS

PART	P/N
270 VDC connector	ACP270VDCC
270 VDC male receptacle	ACP270VDC-M-RECPT

High-quality 270VDC connector cable assemblies to the worlds military market.

Designed and tested to meet the F-35 Lighting II stringent SAE AS7974/5 standard, our 270VDC ground power cable assemblies are used worldwide to support every military branch of service supporting all the F-35, F22 aircraft variants.

Male dust cover

#### PARTNUMBERS

PART	P/N
270 VDC connector male dust cover	ACP270VDC-DUSTCOVER-M

Designed and tested to meet the F-35 Lighting II stringent SAE AS7974/5 standard, our 270VDC ground power cable assemblies are used worldwide to support every military branch of service supporting all the F-35, F22 aircraft variants.

Manufactured to specification MIL-C-81790.

Receptacle base is reinforced material for low moisture absorption and high strength

Contacts are machined and silver plated

Studs and contact nuts for lug connections are located at the rear of the receptacle

#### PARTNUMBERS

PART	P/N
270 VDC Receptacle	ACP270VDC-R2

Designed and tested to meet the F-35 Lighting II stringent SAE AS7974/5 standard, our 270VDC ground power cable assemblies are used worldwide to support every military branch of service supporting all the F-35, F22 aircraft variants.

Manufactured to specification MIL-C-81790.

Receptacle base is reinforced material for low moisture absorption and high strength

Contacts are machined and silver plated

Studs and contact nuts for lug connections are located at the rear of the receptacle

## PARTNUMBERS

PART	P/N
270 VDC Receptacle	ACP270VDC-R3

Designed and tested to meet the F-35 Lighting II stringent SAE AS7974/5 standard, our 270VDC ground power cable assemblies are used worldwide to support every military branch of service supporting all the F-35, F22 aircraft variants.

Manufactured to specification MIL-C-81790.

Receptacle base is reinforced material for low moisture absorption and high strength

Contacts are machined and silver plated

Studs and contact nuts for lug connections are located at the rear of the receptacle

Low profile

Threaded connections to suit standard lugs

Impact resistant.

Virtual no maintenance.

Interchangeable contacts, pure copper, silver plated.

#### PARTNUMBER

PART	P/N
270 VDC Receptacle	ACP270VDC-R4

- High impact resistance connector. Ideally suited for any 270 VDC applications, including the F-22 & F-35 aircraft.
- Innovated precision CNC , Silver plated contacts, superior design.
- No maintenance receptacle, for smooth and reliable operations.
- Easy connection to cable.
- Resistant to abrasion, petroleum products & ozone/environmental deterioration
- Ideally suited for most common intelligent fast charging applications
- Industrial strength.
- Meets Lockheed Martin Aeronautics Company Drawing 5PTV6002.
- Meets SAE-AS7974/5
- Supplied with or without cable.
- Integral molded head to ensure no liquids or debris will get into the electrical contact area which could cause an electrical arch or short . There are no metal screws to hold the 270VDC head in place which could cause an electrical short if the head was damaged during use.

## PARTNUMBERS

PART	P/N
270 VDC receptacle (without shield and with contacts)	ACP270VDCR
270 VDC female receptacle shield	ACP270VDCR-F
270 VDC main contact	ACP270VDCU
270 VDC sense contact	ACP270VDCV
270 VDC rear cover	ACP270VDCN

- High impact resistance connector.
- Innovated precision CNC , Silver plated contacts, superior design.
- No maintenance receptacle, for smooth and reliable operations.
- Easy connection to cable.
- Resistant to abrasion, petroleum products & ozone/environmental deterioration
- Industrial strength.
- Meets MS27285
- Supplied with or without cable.

#### PARTNUMBERS

PART	P/N
270 VDC receptacle (without shield and with contacts)	ACPMS27285

## Portable busbar

---

## GENERAL

- Pin Tension Gauge is used for testing insertion and retraction forces on worn aircraft cable connector.
- The Individual power contacts shall measure 24 lbs maximum insertion (A,B,C,N), extraction 16-24 lbs.; auxiliary contacts shall measure 21lbs max. (E,F).

## PROPERTIES

- Silver plated test pins included.
- Including test pins and sockets.
- Easy interchangeable pins and sockets.
- Test your connectors and receptacles accurate, can be mounted on a stand. (or hand operated ).
- Turnable display: automatic direction identification
- Secure operability due to ergonomic design.
- Real time or Peak Hold Mode to observe transients or capture peaks.
- Selectable measuring units: N, lb, kg, oz.
- Auto power off.

## PARTNUMBERS

PART	Configuration
ACPDFM	Aircraftplugs digital force meter including all pins and sockets.
ACPAFM	Aircraftplugs analogue force meter including all pins and sockets.

## GENERAL

ACPDFM	Aircraftplugs digital force meter including all pins and sockets.
ACPAFM	Aircraftplugs analogue force meter including all pins and sockets.

## GENERAL

- Visit our sister company website for full details [www.aero-pac.Com](http://www.aero-pac.Com)

## PROPERTIES

Low ripple  
Overvoltage protection  
Reverse current protection  
Auto cooling fan.  
AN2551 connectors with long lead.

## PROPERTIES

We design enclosures on request, or made according to your drawing.  
In aluminium or metal sheet.  
Welded or screw together, powder coated into your color.  
We perform the electrical inside installation on request.

## GENERAL

- Nominal operating voltage: 12V/24V
- Max. continuous operating current: 100A
- Max. peak current: 500A for 5secs
- Ingress Protection (IP) rating: IP43 (solid objects >1mm and spraying water)
- Operating temp: -40°C to +50°C
- Terminal contact material: Copper
- Nut material: Zinc-plated steel
- Terminal stud size: M8 x 13mm
- Panel hole size for barrel clearance: 23mm
- Fixing hole dia: 6.6mm
- Fixing hole pitch: 38mm
- Overall height (inc. key): 106mm
- Diameter of body: 58mm
- Optional with locking key.

## PARTNUMBERS

PLUG PART	Description
ACPBSC-1	Battery main switch – removable key
ACPBSC-2	Battery main switch – non removable key
ACPBSC-3	Battery main switch – with lock

#### GENERAL

- 3 LED battery level indicator that can be used for monitoring the voltage level of 12V or 24V

#### PARTNUMBERS

PLUG PART	Configuration
ACPBATT12V	12 V battery indicator
ACPBATT24V	24 V battery indicator

## GENERAL

- Battery cables provide the vital link between the battery, load and charging system.
- Faulty connections can lead to poor system performance,

## PARTNUMBERS

PLUG PART	Cable section	CABLE section
ACBPCPL-1	14 AWG – 1mm <sup>2</sup>	20 A
ACBPCPL-1	12 AWG – 3 mm <sup>2</sup>	30 A
ACBPCPL-1	10 AWG - 5 mm <sup>2</sup>	40 A
ACBPCPL-1	8 AWG - 10 mm <sup>2</sup>	55 A
ACBPCPL-1	6 AWG – 15 mm <sup>2</sup>	75 A
ACP3P6	4 AWG – 25 mm <sup>2</sup>	95 A
ACP3P7	2 AWG - 35 mm <sup>2</sup>	130 A
ACP3P8	1 AWG – 40 mm <sup>2</sup>	150 A
ACP3P9	1/0 AWG – 55 mm <sup>2</sup>	170 A
ACP3P9	2/0 AWG – 70 mm <sup>2</sup>	265 A
ACP3P9	4/0 AWG – 110 mm <sup>2</sup>	360 A

## GENERAL

- Large stock
- Pure copper or brass.
- CNC machined if required and cut and bended according to your drawing.

PART	sizes	Standard length
Round	4 till 200 mm	4 m
Bars	6x6 till 80 x 40 mm	4 m
Plates	Thickness from 0,3 mm till 80 mm	1 m or 2 m

## GENERAL

- Aircraftplugs connectors are genderless - two identical connectors are mated by turning one of them through 180 degrees and pushing them together. There are no male or female contacts. The high power contacts must be connected to the cable and inserted in the housings in order to connect the two connectors. This is because flat wipe Aircraftplugs connector type contacts are held in place by a spring that is depressed by the insertion of a contact.

## PARTNUMBERS

PLUG PART	Amperage	Description
ACPBPC-1	50 A	Grey – dual poles
ACPBPC-2	50 A	Red – dual poles
ACPBPC-3	175 A	Grey – dual poles

## GENERAL

- Aircraftplugs make spring operated cable reeling drums are powered with springs and has an automatic rewind feature which provides an extremely simple way of supplying power to machines such as cranes and hoists. These spring cable reeling drums are used for both AC and DC applications. These reels recovers and store the cable in multiple layers on the drum.

Standard reels are supplied for the cable fed in the clockwise direction, when viewed from the slipping side. The same can be provided for anticlockwise feed of cable also. These reels are extremely simple to mount, and can be mounted on the structure with the help of a supporting flange - If no suitable structure is available, then Unbalanced Vibrator Motor a bracket can be connected to the flange and this can be fixed to the floor or tray etc.

The springs used in these reels are manufactured from the highest quality materials and are of clock spring type. A wide range of characteristics can be obtained by assembling these springs singly or in series or in parallel.

[More information](#)

- Do you look for PCA adapters , Airstart couplings , LAV – Water 1 inch  $\frac{3}{4}$  inch couplings, we produce them and have large stock.

#### More information

- Please contact our sales team for crocodile cable carriers , tailor made solutions.

#### More information

- The Aircraftplugs-tite aperture has been designed and engineered to give the plug greater compression than standard solid plugs ensuring a perfect seal whilst still being able to cut to size if needed.
- Greater resistance to most oils within temperature range from -25°C up to 90°C
- Does not shrink, leak or discolor
- Resistant to sunlight for greater shelf life, does not split/crack or deteriorate
- Easy to use. Insert, squeeze, press home and release
- The compressed rubber ensures a tight fit.
- Large stock levels.

#### Main usage

Designed and used to prevent the leakage and contamination of various fluids, including hydraulics, and chemicals, during the service, maintenance, and storage of machinery and equipment. The Aircraftplugs-tite aperture has been designed and engineered to give the plug greater compression than standard solid plugs ensuring a perfect seal whilst still being able to cut to size if needed. Used in Industrial areas such as hydraulic, chemical, processing, MRO, HVAC, Mining, Heavy equipment.

#### More information

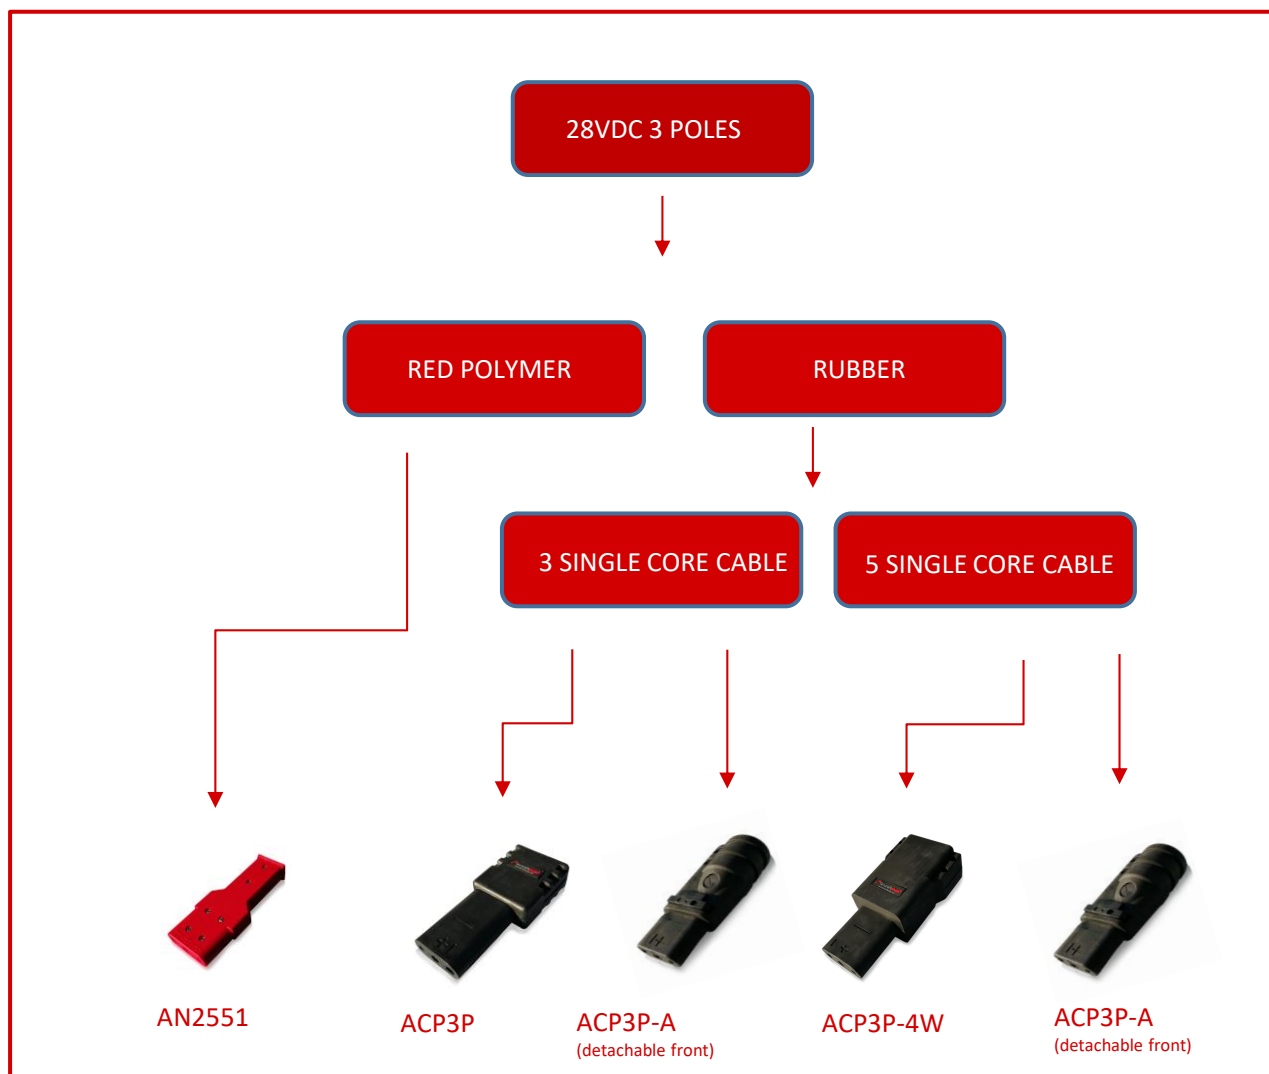

- Do you look for key gadget holder with your company brand on it, or other publicity material in rubber. Or you need rubber seal or technical rubber product. We produce all kinds of precision rubber molded components and rubber-to-metal bonded assemblies at competitive pricing. We do also welcome small series.
